c) Evaluation and Scoring Mechanism

The Authority shall adopt a **Quality and Cost Based Selection (QCBS)** framework. This ensures that the Selection of the Anchor Industrial Partner (AIP) is based on a balanced assessment of technical expertise, cost-efficiency, and the extent of private sector investment.

1. Weightage Distribution

The total score is divided into two main categories with a **80:20** weightage between Technical and Financial performance:

a) **Technical Weightage: 80%** (This is further sub-divided into two parameters):

(i) **Technical Weightage (Xt): 50%**

(ii) **Overall cost efficiency of the SIP as per Form Tech 9B)Weightage (Yt): 30%**

**RFP for Selection of Anchor Industry Partner under Component – 1 of
PM-SETU (Pradhan Mantri Skilling and Employability Transformation through Upgraded ITIs) Scheme**

b) **Industry Contribution Score (Zt): 20%** (Based on the percentage of private investment Fin-2).

Calculations: with example for reference

Step I: Technical Score (Xt) : 50% Weightage

The Technical Evaluation Committee (TEC) shall score the SIP based on the comprehensive Evaluation Rubric provided in Section 4, Part B.

Step II: Overall Project cost efficiency of the SIP (Yt): [30% Weightage]

Yt calculated as follows:

$$\text{Cost per Unit Technical Score A} = \frac{\text{Total Financial Outlay (from Form Tech 9B)}}{\text{Technical Score (Xt)}}$$

$$Y_t = \frac{\text{A Minimum}}{\text{A of the bidder under calculation (from Form Tech 9B)}} \times 100$$

Step III: Industry Contribution Score (Zt) : [20% Weightage]

This score rewards Bidders who commit a higher percentage of private investment into the cluster.

Input: Industry Share Percentage (F) (from Form FIN-2).

Calculate Normalized Score (Zt):

$$Z_t = \frac{\text{F (\% Share of the bidder under calculation)}}{\text{F (\% of Maximum Share)}} \times 100$$

(Where Fmax is the highest industry share percentage proposed among all technically qualified bidders).

Evaluation Summary Table (The “Master Formula”)

The Final Combined Score (Sn) shall be the sum of the weighted scores:

$$\mathbf{S_n = (X_t \times 0.50) + (Y_t \times 0.30) + (Z_t \times 0.20)}$$

The Bidder who scores the highest aggregate marks shall be the Selected Bidder. Cluster will be awarded to the Selected Bidder.

Illustrative Example of Evaluation**

Assume three bidders are technically qualified.

1) Step-1: Technical Scores (X_t):

Bidder	Technical Score (X_t)
Bidder A	78
Bidder B	72
Bidder C	85

2) Step-2: Overall cost efficiency of the SIP (Y_t): 30% Weightage

Input (Tech 9B): Total Project Outlay proposed by bidders

Bidder	Total Outlay (₹ crore)
Bidder A	115
Bidder B	110

Bidder	Calculation	A
A	$115 \div 78$	1.474
B	$110 \div 72$	1.528
C	$130 \div 85$	1.529

Amin=1.474 (Bidder A)

Calculation of Y_t :

$Y_t = (A \text{ Min} / \text{bidder under calculation}) \times 100$

Bidder	Calculation	Y_t
A	$(1.474 / 1.474) \times 100$	100
B	$(1.474 / 1.528) \times 100$	96.47
C	$(1.474 / 1.529) \times 100$	96.40

3) Step-3: Industry Contribution Score (Z_t) : 20% Weight

Input (FIN-2): Industry Share %

Bidder	F (%)
A	18%
B	20%
C	25%

Fmax=25%

4) Final Calculation:

$$S_n = (X_t \times 0.50) + (Y_t \times 0.30) + (Z_t \times 0.20)$$

Bidder	Calculation	Final Score (S_n)
A	$(78 \times 0.50) + (100 \times 0.30) + (72 \times 0.20)$	83.40

Section -5 Terms of Reference (ToR)

1) Background

1.1.1

The Department of Industrial Training and Employment under Skill Development Entrepreneurship And Livelihood (SDEL) Karnataka (the “Authority”) (herein after referred as DITE) having its principal office at Kaushalya Bhavan, Dairy Circle, Bangalore 560029 is engaged in providing vocational trainings for the upgradation of industrial production, services, productivity and innovation, contributing to the planned growth of the country's economy through the development of Industrial Training Institute(s) (“ITIs”).

- a) The Directorate General of Training (DGT), under the Ministry of Skill Development and Entrepreneurship (MSDE), Government of India, is the apex organization responsible for development, coordination, and regulation of long-term vocational training in the country, including Women’s Vocational Training. DGT oversees the Craftsman Training Scheme (CTS), which offers training programs ranging from six months to two years, sets policies and standards, develops curricula, manages affiliations and assessments, and conducts National level examinations. Training under CTS is delivered through Industrial Training Institutes (ITIs), while instructor development is undertaken through National Skill Training Institutes (NSTIs). DGT is also entrusted with implementing apprenticeship training in Designated Trades and periodically supports States/UTs in strengthening skilling infrastructure, ensuring a steady supply of trained manpower for industry.
- b) Over the years, ITIs have remained a priority area for the Government of India. Enrolments have grown significantly, new-age courses aligned with industry needs have been introduced, and modernization initiatives have been undertaken. While affiliation

RFP for Selection of Anchor Industry Partner under Component – 1 of

PM-SETU (Pradhan Mantri Skilling and Employability Transformation through Upgraded ITIs) Scheme

and examination policy is determined centrally, administrative and financial control of Government ITIs rests with State Governments.

- c) NSTIs, centrally funded and managed by DGT, play a key role in strengthening the skilling ecosystem by training instructors of ITIs. There are currently 33 NSTIs (19 dedicated to women and 14 general), providing training in both technical skills and pedagogy to ensure effective transfer of hands-on learning.
- d) Despite this progress, multiple assessments highlight the need for comprehensive transformation of ITIs and NSTIs to align with the demands of a rapidly growing and technology-driven economy. Upgradation is required in infrastructure, equipment, governance, instructor capacity, industry engagement, and overall employability outcomes. A more pragmatic, systemic, and coordinated approach is essential.
- e) To address these needs, the Government of India has announced a centrally sponsored scheme with an outlay of ₹60,000 crore (₹30,000 crore Central share, ₹20,000 crore State share, and ₹10,000 crore industry contribution) for the upgradation of 1,000 ITIs in a Hub-and-Spoke model. The scheme proposes creation of government-owned, industry-managed ITIs, implemented in collaboration with States and industry partners. Nearly 20 lakh youth are expected to be trained over five years through industry-aligned courses, including those related to Industry 4.0, green technologies, and other emerging sectors. Selected NSTIs will also be transformed into exemplar institutions for advanced skill training. Furthermore, the scheme is bolstered by strategic financial and knowledge support from the World Bank and the Asian Development Bank (ADB). This partnership includes result-linked financing to ensure measurable employment outcomes, alongside technical assistance for international benchmarking of curricula, teacher training modernization, and the integration of global best practices in vocational pedagogy.
- f) Given the scale and complexity covering planning, industry coordination, capacity building, financial management, monitoring, and reporting — States will require dedicated technical and project management support.
- g) The scheme has two major components:
 - (i) Component I: Upgradation of ITIs under a Hub-and-Spoke model with revamped courses.
 - (ii) Component II: Transformation of identified NSTIs into exemplar training institutions.
- h) Under Component I, ITIs will be developed into aspirational, industry-aligned institutions through improvements in modern infrastructure, digital and training facilities, faculty development, updated curricula, and a governance model led by industry through Special Purpose Vehicles (SPVs). Anchor Industry Partners (AIPs) will play a central role in planning, co-investment, training design, and placement facilitation.
- i) Implementation will be guided by a National steering Committee (NSC) chaired by the Secretary, MSDE, comprising representatives from DGT, NCVET, relevant Ministries, States/UTs, academia, and industry. The NSC will oversee policy direction and monitor scheme implementation.
- j) States will follow a structured process for selection of ITIs and cluster formation, including:
 - (i) defining state-specific eligibility and selection criteria,

**RFP for Selection of Anchor Industry Partner under Component – 1 of
PM-SETU (Pradhan Mantri Skilling and Employability Transformation through Upgraded ITIs) Scheme**

- (ii) preliminary shortlisting against minimum National criteria,
 - (iii) cluster identification based on industry potential and feasibility studies,
 - (iv) incorporation of industry inputs on trades, cluster configurations, and priorities, and
 - (v) finalization of ITI clusters for implementation.
- k) The Government of Karnataka has constituted a State Steering Committee (SSC) as the apex State-level body. The SSC chaired by the Chief Secretary to Government, Government of Karnataka, provides policy guidance, approves action plans, and reviews implementation progress. It coordinates with the Ministry of Skill Development and Entrepreneurship and implementing agencies such as the Directorate General of Training, key Departments including Industrial Training and Employment, Finance, Industries, Higher Education, premier academic institutions, industry partners, and academia. The SSC approves the selection of Hub and Spoke ITIs and infrastructure upgradation proposals. It monitors milestones, resolves administrative issues and facilitates industry partnerships. The Committee reviews performance indicators and ensures outcome-based implementation. The SSC will be submitting periodic reports to the National Steering Committee to ensure transparency, accountability and measurable employability outcomes under PM-SETU.
- l) The Hubs should be equipped with state-of-the-art infrastructure including modern trades/courses, digital learning tools, advanced equipment, incubation/innovation centers, production units, Training of Trainers and placement services. The Spoke ITIs will extend within the geographical reach of each cluster, ensuring access in remote or underserved areas, while following the curriculum, governance, and industry-linkage frameworks defined by the Hub and its Special Purpose Vehicle (SPV). Under the project, Hub it is should be introduced with an average of four (4) new courses and upgradation of infrastructure of at least ten (10) existing trades. Under the project, Spoke ITIs should be introduced with an average of two (2) new courses and upgradation of infrastructure of at least eight (8) existing trades.
- m) The AIP will form a SPV, which will be a new not-for-profit Section 8 company incorporated under Companies Act, 2013, wherein Government would be, in terms of the Bidding Documents and particularly the shareholders agreement, issued and allotted 49% of the economic and voting shares of the SPV for on boarding it in the SPV to undertake the Cluster through a joint venture of AIP and the Government. The AIP will accordingly hold 51% of the economic and voting shares of the SPV, while the remaining 49% of the economic and voting shares of the SPV will be vested with the Central and State Government. The SPV will act as the Licensee and shall be responsible for the development and management of the Cluster and performance of related obligations including delivery of the specified training and employment outcomes. The SPV will have full autonomy over course offerings (e.g., introduction of new programs, curriculum and pedagogy design), trainer management (e.g., recruitment, training), and financial operations (e.g., expenditure, revenue generation from users). Through this comprehensive approach, the scheme seeks to transform ITIs and NSTIs into modern, outcome-focused institutions delivering high-quality, industry-relevant training and sustainable employment opportunities.
- n) The AIP is envisaged to be selected through a competitive bidding process through a quality and cost based mode based on weighted average of the marks scored in terms

RFP for Selection of Anchor Industry Partner under Component – 1 of

PM-SETU (Pradhan Mantri Skilling and Employability Transformation through Upgraded ITIs) Scheme here-in (including clause 1.2.4 and 3.4.2 on their technical and financial eligibility, overall up-gradation cost as per the Strategic Investment Plan (“SIP”) (Form Tech-8), and financial bid offer for the upgradation of the ITIs as submitted in terms herein for the Cluster. 8) Scheme Institutionalization and Execution Roadmap

(i) Issuance and Acceptance of Letter of Award (LoA)

The selection process concludes with the issuance of the Letter of Award to the successful bidder. The selected Anchor Industrial Partner (AIP) shall convey its formal acceptance within [7] days of receipt. This milestone serves as the official commitment and the starting point (T0) for the partnership. No further legal or financial steps, including SPV formation, can be initiated until this formal award is finalized and accepted.

(ii) Incorporation of the Special Purpose Vehicle (SPV)

Following LoA acceptance, the AIP must lead the legal incorporation of the Special Purpose Vehicle (SPV), registered as a Section 8 Company (Not-for-Profit) under the Companies Act, 2013, in line with PM-SETU guidelines. During this phase, the Memorandum of Association (MoA) and Articles of Association (AoA) shall be executed and filed with the Registrar of Companies (RoC). These documents serve as the SPV's foundational "charter," defining its legal existence, governance framework, and core mission to manage and upgrade the designated ITI cluster.

(iii) Execution of the Shareholding Agreement (SHA)

Once the SPV is legally incorporated and has obtained its Certificate of Incorporation, the Anchor Industrial Partner (AIP), the Central Government, and the State Government shall execute a Tripartite Agreement / SPV Governance Agreement. This Agreement shall codify the industry-led governance model by defining the contribution structure, governance framework, Board composition, and decision-making rights of the parties. It shall also formalise the AIP's commitment to provide the mandatory minimum 17% contribution (contribution to Escrow Account) and set out the financial management, monitoring, and compliance mechanisms applicable to the SPV.

(iv) Execution of the License Agreement (LA)

The License Agreement shall be signed between the State Government and the newly formed SPV. This agreement legally transfers the "Right to Use" the existing Government ITI land, buildings, and machinery to the SPV for the project duration. This is the critical "handover" milestone that allows the AIP and its technical teams to take operational control of the facilities, deploy staff, and begin physical site assessments. The ownership of the land and permanent assets remains with the Government, while the SPV holds the license for management.

(v) Submission and Approval of the Final Strategic Investment Plan (SIP)

While a preliminary SIP is submitted during the bidding stage, the AIP is required to submit a **Final Strategic Investment Plan** after gaining full access to the ITIs via the License Agreement. The Final SIP must be a granular, ground-level blueprint detailing final trade selections, modern equipment specifications, infrastructure design, and a month-on-month expenditure plan. Approval of this Final SIP by the State Steering Committee (SSC) is the final trigger for the release of the first tranche of project funds and the commencement of physical upgradation.

C. Performance-Linked Disbursement and Monitoring

The financial lifecycle of this project is governed by a results-based funding model. While the initial mobilization grant is provided to initiate the Special Purpose Vehicle (SPV) and early infrastructure works, all subsequent fund releases are strictly contingent upon performance. The National Steering Committee (NSC) will utilize the Milestones (A) and Target Thresholds (B) as the primary criteria for approving the Annual Operational Plan (AOP) and authorizing disbursements. Failure to meet these benchmarks may result in the withholding of funds or the requirement of a corrective action plan to ensure the project remains aligned with the National objectives of PM-SETU.

This Terms of Reference (ToR) is to be read in conjunction with the PM-SETU Guidelines attached as Appendix. In the event of any conflict between the guidelines and the ToR, the PM-SETU Guidelines shall prevail for policy matters, while the ToR shall prevail for cluster-specific operational details.

(Refer Clause 1.2.1)

No. 6/4/2001-DD-II

Department of Disinvestment, Government of India

OFFICE MEMORANDUM

Sub: Guidelines for qualification of Bidders seeking to acquire stakes in Public Sector Enterprises through the process of disinvestment

Government has examined the issue of framing comprehensive and transparent guidelines defining the criteria for bidders interested in PSE-disinvestment so that the parties selected through competitive bidding could inspire public confidence. Earlier, criteria like Net Worth, experience etc. used to be prescribed. Based on experience and in consultation with concerned departments, Government has decided to prescribe the following additional criteria for the qualification/ disqualification of the parties seeking to acquire stakes in public sector enterprises through disinvestment:

- (a) In regard to matters other than the security and integrity of the country, any conviction by a Court of Law or indictment/ adverse order by a regulatory authority that casts a doubt on the ability of the bidder to manage the public sector unit when it is disinvested, or which relates to a grave offence would constitute disqualification. Grave offence is defined to be of such a nature that it outrages the moral sense of the community. The decision in regard to the nature of the offence would be taken on case to case basis after considering the facts of the case and relevant legal principles, by the Government of India.
- (b) In regard to matters relating to the security and integrity of the country, any charge-sheet by an agency of the Government/ conviction by a Court of Law for an offence committed by the bidding party or by any sister concern of the bidding party would result in disqualification. The decision in regard to the relationship between the sister concerns would be taken, based on the relevant facts and after examining whether the two concerns are substantially controlled by the same person/ persons.
- (c) In both (a) and (b), disqualification shall continue for a period that Government deems appropriate.
- (d) Any entity, which is disqualified from participating in the disinvestment process, would not be allowed to remain associated with it or get associated merely because it has preferred an appeal against the order based on which it has been

disqualified. The mere pendency of appeal will have no effect on the disqualification.

- (e) The disqualification criteria would come into effect immediately and would apply to all bidders for various disinvestment transactions, which have not been completed as yet.
- (f) Before disqualifying a concern, a Show Cause Notice why it should not be disqualified would be issued to it and it would be given an opportunity to explain its position.
- (g) Henceforth, these criteria will be prescribed in the advertisements seeking Expression of Interest (EOI) from the interested parties. The interested parties would be required to provide the information on the above criteria, along with their Expressions of Interest (EOI). The bidders shall be required to provide with their EOI an undertaking to the effect that no investigation by a regulatory authority is pending against them. In case any investigation is pending against the concern or its sister concern or against its CEO or any of its Directors/ Managers/ employees, full details of such investigation including the name of the investigating agency, the charge/ offence for which the investigation has been launched, name and designation of persons against whom the investigation has been launched and other relevant information should be disclosed, to the satisfaction of the Government. For other criteria also, a similar undertaking shall be obtained along with EOI.
