OFFICE MEMORANDUM

Subject: Compliance with the Judgment dated 17/09/2026 passed by the Hon'ble High Court of Delhi in Writ Petition W.P.(C) No. 12488/2026 Titled "Career Private ITI v. Directorate General of Training and Ors. -Regarding

1- That the present writ petition has been filed by the Petitioner-Institute, namely **Career Private ITI (PU23000357)**, seeking, *inter alia*, quashing of the letter dated **19.06.2026** issued by the Respondent, whereby the decision of the **29th SCAA** to de-affiliate the Petitioner-ITI was communicated, and further seeking restoration of the affiliation of the Petitioner-ITI.

2- That the matter was listed before the Hon'ble High Court on **17.08.2026**, wherein, the Hon'ble Court directed the Respondent to issue a **fresh notice to the Petitioner at its registered e-mail ID**, in accordance with the directions contained in the order dated 17.08.2026.

3- That, in compliance with the aforesaid directions of the Hon'ble Court, a **fresh Show Cause Notice dated 22.09.2026** was issued to the Petitioner-ITI, affording it an opportunity to submit its response with respect to the deficiencies noticed during the inspection and communicated earlier vide SCN dated **09.03.2026**.

4- That the deficiencies referred to in the aforesaid SCN were based upon the findings recorded during the **Joint Inspection conducted on 03.07.2025**. The Petitioner submitted its reply to the fresh Show Cause Notice along with certain photographs and other documents in support of its submissions. The said reply and the material annexed thereto were duly examined and considered with reference to the records available on file.

5- That, in order to ascertain and verify the factual position at the premises of the Petitioner-ITI and to examine the compliance claimed by the Petitioner in its reply, a **Joint Physical Inspection was conducted on 25.09.2026 by the officials of the State Government and the RDSDE, Madhya Pradesh**.

6-That during the aforesaid Joint Physical Inspection, the Inspection Team found **various deficiencies relating to infrastructure, safety requirements, machinery and other essential facilities required for imparting training in the ITI**. The deficiencies so noticed were duly recorded in the inspection report. In particular, deficiencies pertaining to safety and essential training infrastructure were found to be of a serious nature and were not found to be adequately rectified/complied with by the Petitioner.

7- That, upon physical verification of the institute, the Inspection Team did not recommend continuation of the **trades/units** being operated by the Petitioner-ITI and recommended **de-affiliation of the institute**, in view of the deficiencies and non-compliance noticed during the inspection.

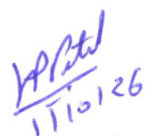

8- That the report of the Joint Physical Inspection dated **25.09.2026**, along with the reply submitted by the Petitioner and the documents/photographs annexed thereto, was duly considered with reference to the relevant records and applicable norms. Upon consideration of the material available on record, the Petitioner-ITI failed to establish that the deficiencies pointed out in the proceedings had been satisfactorily rectified and that the prescribed norms and requirements had been duly complied with. The detailed remarks and observations are annexed at **Annexure-1**.

9- That, upon due consideration of the records, inspection findings, and the material submitted by the Petitioner, it is evident that the Petitioner-ITI is not functioning in accordance with the prescribed norms and does not possess the requisite training infrastructure, equipment, and other facilities as required under the applicable norms. The DGT cannot overlook or disregard such deficiencies in the institute, as the ultimate sufferers would be the trainees who seek and receive training at the institute.

10- Accordingly, the decision of the 29th SCAA to de-affiliate the Petitioner-ITI does not warrant any further interference. Accordingly, the reply/submissions furnished by the Petitioner on dated 21.09.2026 are hereby **rejected**. The Petitioner-ITI shall continue to remain **de-affiliated**, and no fresh admissions shall be permitted in the petitioner institute.

However, the Petitioner-ITI may submit a fresh application for affiliation in accordance with the latest Affiliation Norms, 2025, subject to fulfilment of all prescribed requirements.

This issues with the approval of competent authority.

Annexure-1

Sr No	SCN issued on 21.09.2026 in line of Joint Inspection conducted on 3 rd July 2025 and SCN issued on 9 th March 2026 (26 th SCAA)	Petitioner Reply	Physical Verification report in line of Petitioner Reply on 25 th Sep 2026	DGT comments
1.	The Rent deed of 11-month up to 07 march 2026 was available.	Rent agreement dated 16-02-2026 valid up to 16-02-2032 was sent by Petitioner	Rent agreement dated 16-02-2026 valid up to 16-02-2032 notarized but not registered presented. Land ownership documents not available. Rent payment receipts and bank statements not available in support of monthly rent payments. Boundary of the ITI not marked.	As per Affiliation Norms 2018 Page no. 59 “ Documents showing ownership in the name of the applicant in the form of Registered Sale Deed/ Irrevocable Gift Deed (Registered)/ Irrevocable Registered Lease ”. However, as per the Inspection Report, the ITI has neither produced a registered lease deed in respect of the land on which the institute is operating nor furnished valid rent receipts in support of its lawful possession of the premises. This constitutes non-compliance with the applicable Affiliation Norms. Accordingly, the reply submitted by the Petitioner on this issue is not found satisfactory and does not adequately address the deficiencies pointed out in the Inspection Report.
2.	The building certificate was not provided by the ITI by stating that during affiliation it is not mandatory.	Petitioner Replied “When the Institute was granted recognition in 2014, BCC was not mandatory but we can provide Certificate Now”.	BCC is not as per prescribed format.	As per the provisions of the <i>Affiliation Norms, 2018, stipulated at Page No. 108</i> , the ITI Building Construction Certificate (BCC) submitted by the Petitioner is not in conformity with the prescribed norms. Therefore, the said BCC cannot be accepted as valid compliance with the Affiliation Norms

3.	The electricity consumption was very low of last six month below 50 units of whole Institute.	Petitioner Reply "Area under which ITI fall have power Cut issue so institute has to make extensive generator use due to which electricity consumption low. Diesel Generator Bill enclosed along with."	Average monthly Electricity consumption is below 200 units. Meter is installed 100 meters away from ITI. Meter not sealed. Meter number not mentioned on the EB. Bill in support of generator purchase not available not maintained by the ITI.	In view of the aforesaid deficiencies, non-compliance with the prescribed affiliation norms relating to essential infrastructure and indicate that the ITI has failed to demonstrate the availability of adequate and verifiable power supply infrastructure necessary for imparting training. As per affiliation norms 2018 page 57, the institute is required to have 3-phase commercial connection and back up supply as well. The back up supply DG Set cannot be used as a primary connection and main source of power supply. Further, the non-availability of supporting documents/bill evidencing the purchase and installation of the DG Set indicates that the same may have been arranged temporarily to meet the inspection requirements, rather than being a regular and permanent power backup arrangement. Accordingly, the Petitioner-ITI has failed to establish compliance with the prescribed power supply requirements.
4.	The ITI records such as - Dead Stock Register, raw material register, Student records, Teachers Records, Daily. Diary, lesson plan were not maintained by the ITI.	Dead Stock Register, Raw Material Register, Staff Attendance, and Student Records have now been properly updated and maintained as per norms.	Still not maintained. Student attendance registers not signed by respective instructors.	The non-maintenance/non-production of the Record Register also adversely affects the transparency, monitoring and assessment of training activities and raises concerns regarding whether the prescribed training has been imparted effectively to the trainees. Consequently, the deficiency has a direct bearing on the quality, continuity and effectiveness of skill training being provided to the trainees and remains unrebutted by the Petitioner.
5.	In Lab 1&2 many machineries like 05 kva DG SET, Induction motor, stepper motor, Synchronous motor, DC Motor with Techo generator Set, VVVF	All machines including Induction Motor, Stepper Motor, Synchronous Motor, DC Motor with Tacho Generator Set have been connected to power supply in Lab-01 and Lab-	Most of the machines like EV Chargers not available as per latest curricula.	As per the Norms, 2018 (Page 42) , it is clearly stipulated that: "From time to time, NCVT/DGT may decide to change the norms/requirements for machinery/equipment/tools, power supply, staff, etc. Such changes shall be implemented by all existing ITIs within one year of introduction."

	arrangement etc were not available on the day of inspection. The machines available in Lab 1&2 were not in working condition due to power failure. The Electrician Lab 1&2 area was short as per norms.	02 and are now fully operational. All Machine are in operational condition and power failure issue has been resolved .	The machines available are not installed properly. Instructors present on the day of inspection could not describe and run the machines.	Accordingly, with the introduction of the 2024 syllabus, the prescribed/new machinery and equipment are required to be available in the Institute to ensure effective, safe and skill-oriented training of trainees. Further, from the Inspection Team photographs submitted, it is evident that some of the machines are in not grouted and poorly maintained condition, which may adversely affect the safety of trainees as well as the quality and effectiveness of practical training. It is also observed that safety mats have not been provided/placed at the relevant workstations, which raises concerns regarding compliance with prescribed safety requirements.
6.	The IT Lab was available but 05 computers out of twelve were not in working condition.	20 computers have been installed in working condition in the IT Laboratory.	05 Computers in working condition. Power back up not available. Air conditioners not available. Cracks in walls.	As per the NCVT Norms, 2018, Page No. 51, it is clearly prescribed that a minimum of 10 computers should be available in the ITI laboratory for imparting practical training to trainees. Further, the differences observed between the photographs submitted by the ITI in its reply on Dated 21st Sep 2026 and those captured by the Inspecting Team during inspection on 25th September 2026 raise serious concerns regarding the authenticity and reliability of the material submitted by the ITI. Such discrepancies indicate that the ITI has not provided a consistent and credible representation of the actual infrastructure and facilities available at the time of inspection.
7.	Training Infrastructure Drawing Hall The drawing hall was not available in the ITI.	ITI shared Photographs of Drawing Hall	Still not available.	As per Affiliation Norms 2018 Drawing Hall Size should be 50 Sqm. Since from 2018 Norms it has been around 8 years, so ITI must comply with New norms. Further, the photographs submitted by the ITI in respect of the Drawing Hall do not demonstrate compliance with the prescribed requirements. Accordingly, the ITI has failed to establish that the Drawing Hall is adequately

				equipped and maintained in accordance with the applicable norms.
8.	The condition of roof and basic infrastructure inside the Pvt ITI was very bad, power utilization of Electricity of last six months shows that the training quality very poor.	As per petitioner proper lighting arrangements and cleanliness has been ensured painting and maintenance work has been completed.	Workshop roof is made of asbestos sheets with damages. Electricity wiring is loose lying on the ground and over workshop area. Fire NOC not available.	As per affiliation Norms 2018, Page No. 63 “Proper earthing and bonding of electrical wiring shall be ensured” Workshops poor infrastructure along with loose wiring raise serious safety concerns for trainees and staff. As per the NCVT Norms, 2018, a Fire Safety Certificate, duly approved by the competent authority of the Fire and Safety Department of the concerned State Government/UT, is required to be available. Since the ITI failed to produce a valid Fire NOC. These deficiencies indicate non-compliance with the prescribed safety and infrastructure requirements and demonstrate inadequate attention towards maintaining a safe training environment.
