	Annexure I (List of Trade Tools & Equipment)	20
	Annexure II (List of Trade experts)	23

During the one-year duration of 'Food Beverage' trade, a candidate is trained on Professional Skill, Professional Knowledge and Employability Skill related to the job role. In addition to this, a candidate is entrusted to undertake project work, extracurricular activities and on-the-job training to build up confidence. The broad components covered under Professional Skill subject are as below:

The trainee is trained to prepare fruit juices with juice extracting/ pulping machines with safety precautions and preserve fruit juices with addition of preservatives and determine the acidity and TSS content; prepare and pack various type of flavoured milk by using appropriate machines/tools such as homogenizer, autoclave, bottle washer, liquid/bottle filling machine & corking machine with safety precautions and determine the quality of flavoured milk. The trainees also learn to prepare mineral water by using appropriate machines such as mini water plant and explain quality standards (BIS) of water and water treatment process; explain various types of packaging material used in packaging of food beverages products and storage; prepare and pack synthetic beverages such as soft drink by using appropriate machines such as, carbonation machines, autoclave, bottle washer, liquid/bottle filling machine and corking machine with safety precautions, determine the acidity, TSS content, pH value and Sensory evaluation.

The trainee also learns to prepare and pack fermented beverages such as vinegar, fermented juices and lassi by using appropriate machines/ tools such as, fermenter, seed germinator, vinegar generator, autoclave, bottle washer, required fermentation agents, liquid/ bottle filling machine, Chemical solutions and corking machine with safety precautions. He determines the acidity, TSS content, pH value and Sensory evaluation. The Trainee practices to prepare and pack fermented beverages such as whiskey, beer, wine, rum and brandy by using appropriate machines/ tools such as, fermenter, seed germinator, autoclave, bottle washer, required fermentation agents, liquid/bottle filling machine, Chemical solutions and corking machine with safety precautions and determines the alcohol content, acidity, TSS content, pH value and Sensory evaluation; explain food safety standards and beverage industry waste utilization.

2.1 GENERAL

The Directorate General of Training (DGT) under Ministry of Skill Development & Entrepreneurship offers a range of vocational training courses catering to the need of different sectors of economy/ Labour market. The vocational training programmes are delivered under the aegis of Directorate General of Training (DGT). Craftsman Training Scheme (CTS) with variants and Apprenticeship Training Scheme (ATS) are two pioneer schemes of DGT for strengthening vocational training.

Food Beverage trade under CTS is one of the popular courses delivered nationwide through a network of ITIs. The course is of one year duration. It mainly consists of Domain area and Core area. The Domain area (Trade Theory & Practical) imparts professional skills and knowledge, while the core area (Employability Skill) imparts requisite core skills, knowledge, and life skills. After passing out the training program, the trainee is awarded National Trade Certificate (NTC) by DGT which is recognized worldwide.

Candidates broadly need to demonstrate that they are able to:

- Read and interpret parameters/ documents, plan and organize work processes, identify necessary materials and tools;
- Perform tasks with due consideration to safety rules, accident prevention regulations and environmental protection stipulations;
- Apply professional skill, knowledge & employability skills while performing jobs.
- Document the parameters related to the task undertaken.

2.2 PROGRESSION PATHWAYS

- Can join industry as Technician and will progress further as Senior Technician, Supervisor and can rise up to the level of Manager.
- Can become Entrepreneur in the related field.
- Can join Apprenticeship programs in different types of industries leading to a National Apprenticeship certificate (NAC).
- Can join Crafts Instructor Training Scheme (CITS) in the trade for becoming instructor in ITIs.
- Can join Advanced Diploma (Vocational) courses under DGT as applicable.

2.3 COURSE STRUCTURE

Table below depicts the distribution of training hours across various course elements during a period of one year: -

S No.	Course Element	Notional Training
		Hours
1.	Professional Skill (Trade Practical)	1200
2.	Professional Knowledge (Trade Theory)	240
3.	Employability Skills	160
	Total	1600

2.4 ASSESSMENT & CERTIFICATION

The trainee will be tested for his skill, knowledge and attitude during the period of course through formative assessment and at the end of the training programme through summative assessment as notified by the DGT from time to time.

- a) The **Continuous Assessment** (Internal) during the period of training will be done by **Formative Assessment Method** by testing for assessment criteria listed against learning outcomes. The training institute has to maintain an individual trainee portfolio as detailed in assessment guideline. The marks of internal assessment will be as per the formative assessment template provided on www.bharatskills.gov.in
- b) The final assessment will be in the form of summative assessment method. The All India Trade Test for awarding NTC will be conducted by Controller of examinations, DGT as per the guidelines. The pattern and marking structure is being notified by DGT from time to time. The learning outcome and assessment criteria will be the basis for setting question papers for final assessment. The examiner during final examination will also check the individual trainee's profile as detailed in assessment guideline before giving marks for practical examination.

2.4.1 PASS REGULATION

For the purposes of determining the overall result, weightage of 100% is applied for six months and one year duration courses and 50% weightage is applied to each examination for two years courses. The minimum pass percent for Trade Practical and Formative assessment is 60% & for all other subjects is 33%. There will be no Grace marks.

2.4.2 ASSESSMENT GUIDELINE

Appropriate arrangements should be made to ensure that there will be no artificial barriers to assessment. The nature of special needs should be taken into account while undertaking the assessment. Due consideration should be given while assessing for teamwork, avoidance/reduction of scrap/wastage and disposal of scrap/waste as per procedure, behavioral attitude, sensitivity to the environment and regularity in training. The sensitivity towards OSHE and self-learning attitude are to be considered while assessing competency.

Assessment will be evidence based comprising the following:

- Job carried out in labs/workshop
- Record book/ daily diary
- Answer sheet of assessment
- Viva-voce
- Progress chart
- Attendance and punctuality
- Assignment
- Project work

Evidences and records of internal (Formative) assessments are to be preserved until forthcoming examination for audit and verification by examining body. The following marking pattern to be adopted while assessing:

Performance Level	Evidence	
(a) Weightage in the range of 60%-75% to be al	llotted during assessment	
For performance in this grade, the candidate should produce work which demonstrates attainment of an acceptable standard of craftsmanship with occasional guidance, and due regard for safety procedures and practices	 Demonstration of good skills and accuracy in the field of work/ assignments. A fairly good level of neatness and consistency to accomplish job activities. Occasional support in completing the task/ job. 	
(b) Weightage in the range of 75%-90% to be a	allotted during assessment	
For this grade, a candidate should produce work which demonstrates attainment of a reasonable standard of craftsmanship, with little guidance, and regard for safety procedures and practices	 Good skill levels and accuracy in the field of work/ assignments. A good level of neatness and consistency to accomplish job activities. Little support in completing the task/job. 	

(c) Weightage in the range of more than 90% to be allotted during assessment

For performance in this grade, the candidate, with minimal or no support in organization and execution and with due regard for safety procedures and practices, has produced work which demonstrates attainment of a high standard of craftsmanship.

- High skill levels and accuracy in the field of work/ assignments.
- A high level of neatness and consistency to accomplish job activities.
- Minimal or no support in completing the task/job.

Chemist, Food; Chemist, Food conducts research and analysis concerning chemistry of foods to develop and improve food and beverages. Experiments with natural and synthetic materials or by-products to develop new foods, additives, preservatives, anti-adulteration agents, and related products. Studies effects of various methods of processing, preservation, and packaging on composition and properties of food, such as color, texture, aroma, taste, shelf life, and nutritive content. Tests food and beverage samples, such as starch, sugar, cereals, beer, canned and dehydrated food products, meats, vegetables, dairy foods, and other products to ensure compliance with food laws, and standards of quality and purity. May perform, or supervise workers performing, quality control tests in food processing, canning, freezing, brewing or distilling.

Food and Beverage Tasters and Graders, Other; Food and Beverages Tasters and Graders, Other include workers who inspect, taste and grade various types of agricultural products, food and beverages not elsewhere classified.

Laboratory Assistant, Food and Beverages/Chemist/Analytical Supervisor/Lab Chemist;

Laboratory Assistant, Food and Beverages sets equipment and apparatus and conducts routine test of food, drinks and other edible in laboratory to determine their properties, nutritional value, alcoholic contents etc. and to ensure that they conform to prescribed standards or have not been adulterated. Sets and operates required apparatus such as heaters, hydrometers, thermostats, vacuum pumps etc. depending on nature of test and type of material to be tested such as edibles, butter, milk, cold drinks etc. Performs routine tests of food, beverages, drinks and edibles by chemical processes for determining melting points, specific gravity, boiling point, reaction with chemicals and other factors as directed by Chemists or Food Technologist to find their properties, nutritional value, alcoholic contents etc. Ensures that food and beverages tested conform to prescribed standards, as stated on labels. Reports cases of adulteration, fermentation, putrefaction etc. to senior officers. Washes and cleans apparatus, keeps them in safe custody and maintains records as necessary. Keeps laboratory clean and tidy. May prepare standard solution regents and other testing media.

Reference NCO-2015:

- a) 2131.1400 Chemist, Food
- b) 7515.9900 Food and Beverage Tasters and Graders, Other
- c) 3116.0200 Laboratory Assistant, Food and Beverages/Chemist/Analytical Supervisor/Lab Chemist

Name of the Trade	FOOD BEVERAGE	
Trade Code	DGT/1069	
NCO - 2015	2131.1400; 7515.9900; 3116.0200	
NSQF Level	Level 4	
Duration of Craftsmen Training	One Year (1600 Hours)	
Entry Qualification	Passed 10 th Class examination with Science and Mathematics or its equivalent	
Minimum Age	14 years as on first day of academic session.	
Eligibility for PwD	LD, CP LC, DW, AA, LV, HH, DEAF, AUTISM, SLD, ID	
Unit Strength (No. of Student)	24 (There is no separate provision of supernumerary seats)	
Space Norms	96 Sq. m	
Power Norms	6 KW	
Instructors Qualification fo	or:	
(i) Food Beverage Trade B.Voc/Degree in Food Technology from UGC recognized unit college with one year experience in relevant industry. OR		
Diploma (Minimum 2 Years) in Food Technology form red board of education or relevant Advanced Diploma (Vocation DGT with two years' experience in relevant industry. OR		
	NTC/NAC passed in the trade of "Food Beverage" with three years experience in relevant field.	
	Essential Qualification: Relevant National Craft Instructor Certificate (NCIC) in any of the variants under DGT.	
	Note:- Out of two Instructors required for the unit of 2(1+1), one must have Diploma, and other must have NTC/NAC qualifications. However, both of them must possess NCIC in any of its variants.	
(ii) Employability Skill	MBA/ BBA / Any Graduate/ Diploma in any discipline with Two years' experience with short term ToT Course in Employability Skills from	

	DGT institutes.			
	(Must have studied English/ Communication Skills and Basic			
	Computer at 12th / Diplom	a level and above)		
		OR		
	Existing Social Studies Inst	ructors in ITIs with sho	ort term ToT Course	
	in Employability Skills from	DGT institutes.

40 Hours	30 Hours	6 Hours	4 Hours	

Learning outcomes are a reflection of total competencies of a trainee and assessment will be carried out as per the assessment criteria.

5.1 LEARNING OUTCOMES (TRADE SPECIFIC)

- 1. Prepare fruit juices with juice extracting/ pulping machines with safety precautions and preserve fruit juices with addition of preservatives and determine the acidity and TSS content following safety precautions.
- 2. Prepare and pack various type of flavoured milk by using appropriate machines/tools such as homogenizer, autoclave, bottle washer, liquid/bottle filling machine and corking machine with safety precautions, determine the quality of flavoured milk.
- 3. Prepare mineral water by using appropriate machines such as mini water plant and explain quality standards (BIS) of water and water treatment process.
- 4. Explain various types of packaging material used in packaging of food beverages products and storage.
- 5. Prepare and pack synthetic beverages such as soft drink by using appropriate machines such as, carbonation machines, autoclave, bottle washer, liquid/bottle filling machine and corking machine with safety precautions, determine the acidity, TSS content, pH value and Sensory evaluation.
- 6. Prepare and pack fermented beverages such as vinegar, fermented juices and lassi by using appropriate machines/ tools such as, Fermenter, seed germinator, vinegar generator, autoclave, bottle washer, required fermentation agents, liquid/ bottle filling machine, Chemical solutions and corking machine with safety precautions, determine the acidity, TSS content, pH value and Sensory evaluation.
- 7. Prepare and pack fermented beverages such as whiskey, beer, wine, rum and brandy by using appropriate machines/tools such as, Fermenter, seed germinator, autoclave, bottle washer, required fermentation agents, liquid/bottle filling machine, Chemical solutions and corking machine with safety precautions, determine the alcohol content, acidity, TSS content, pH value and Sensory evaluation.
- 8. Explain food safety standards and beverage industry waste utilization.

SYLLABUS FOR CORE SKILLS

1. Employability Skills (Common for all CTS trades) (160 Hrs)

Learning outcomes, assessment criteria, syllabus and Tool List of Core Skills subjects which is common for a group of trades, provided separately in www.bharatskills.gov.in

LIST OF TOOLS & EQUIPMENT

FOOD BEVERAGE

(For a batch of 24 Candidates)

S No.	Name of the Tools and Equipment	Specification	Quantity
A. EQUIPMENT, MACHINE & TOOLS			
1.	Oven	5 KW	1 no.
2.	Platform scale balance	100 Kg Capacity	1 no.
3.	Soda making machines		1 no.
4.	Seed germinator	Cabinet type, Different chambers, Temp and RH Controller	1 no.
5.	Vinegar generator	Chamber made of SS, with sparger and baffles	1 no.
6.	Fermenter	Bioreactor, SS, with sparger and baffles	1 no.
7.	Slicing machine		1 no.
8.	Automatic pouch machine / filler sealer machine		1 no.
9.	Pulping Machine/Pulper for fruits and		1 no.
10.	Steam jacket kettle 50 litre double jacketed with indenting lever, steam inlet and outlet with steel trolley and accessories to be fitted with boiler.		1 no.
11.	Fruit mill		1 no.
12.	Juice Extractor		1 no.
13.	Corking machines		1 no.
14.	Can seamer		1 no.
15.	Exhaust box		1 no.
16.	Auto clave		1 no.
17.	Cup sealer		1 no.
18.	Steel scale	12 " standard steel	2 nos.
19.	Steel tape	Scales 1 meter, and of 50 ft	2 nos.
20.	Digital weighing balance		03 nos.

21.	Cutting equipments	Different knives, Cutters for	As required	
	5	fruits /Vegetables	•	
22.	Mini water treatment plant		1 no.	
23.	Hot plate	Electrical 2 KW	1 no.	
24.	Refrigerator	220 litre	1 no.	
25.	Tanks SS	50 liters capacity, cylindrical with cap	1 no.	
26.	Syrup tanks	50, 100 lit capacity SS	1 no. each	
27.	Pressure Cooker	5 Kg and 10 Kg SS	1 no. each	
28.	Liquid filling machine	For filling liquid in bottles, 200 ml, 500 ml, 1000 ml. Manual	1 no. each	
29.	SS filter	Sieve type cloth filter, hydraulic,	1 no.	
30.	Sugar coating pan	SS, Revolving type with speed	1 no.	
31.	Bottle opener	Heavy duty, Stainless Steel	4 nos.	
32.	Burette	50 ml digital Automatic/ ordinary glass	2 nos.	
33.	Pipette	5-50 ml capacities, glass	2 nos.	
34.	Improved stoves	Made of MS with proper safety Measures, Valves etc	2 nos.	
35.	Stainless steel / Aluminium pots	Different Capacities	As required	
36.	Wooden spoons	Different sizes	As required	
37.	Homogenizer		1 no.	
38.	Juicer mixer grinder		2 nos.	
39.	Baby Boiler/Diesel fuel/capacity of boiler as per capacity of steam jacket kettle.		1 no.	
40.	Carbonation machines		1 no.	
41.	Distillation Assembly		1 no.	
42.	Soft drink making machines		1 no.	
B: FURN	IITURE			
Class Ro	oom			
43.	Instructor Chair & Table		01 No	
44.	Dual Desk		12 No.	
Worksh	op / Lab			
45.	Suitable Work tables		04 No.	

46.	Stools	24 No.
47.	Discussion Table	01 No.
