

GOVERNMENT OF INDIA MINISTRY OF SKILL DEVELOPMENT & ENTREPRENEURSHIP DIRECTORATE GENERAL OF TRAINING

COMPETENCY BASED CURRICULUM

MECHANIC ELECTRIC VEHICLE

(Duration: Two Years) Revised in July 2022

CRAFTSMEN TRAINING SCHEME (CTS) NSQF LEVEL- 4

SECTOR – AUTOMOTIVE

MECHANICAL ELECTRIC VEHICLE

(Engineering Trade)

(Revised in July 2022)

Version: 2.0

CRAFTSMEN TRAINING SCHEME (CTS)

NSQF LEVEL - 4

Developed By

Ministry of Skill Development and Entrepreneurship

Directorate General of Training

CENTRAL STAFF TRAINING AND RESEARCH INSTITUTE

EN-81, Sector-V, Salt Lake City, Kolkata – 700 091 www.cstaricalcutta.gov.in

CONTENTS

S No.	Topics	Page No.
1.	Course Information	1
2.	Training System	2-5
3.	Job Role	6-7
4.	General Information	8-10
5.	Learning Outcome	11-12
6.	Assessment Criteria	13-18
7.	Trade Syllabus	19-47
	Annexure I (List of Trade Tools & Equipment)	48-51
	Annexure II (List of Trade experts)	52-53

During the two-year duration, a candidate is trained on subjects- Professional Skill, Professional Knowledge, and Employability Skills related to job role. In addition to this, a candidate is entrusted to make/do project work and Extra Curricular Activities to build up confidence. The practical skills are imparted in simple to complex manner & simultaneously theory subject is taught in the same fashion to apply cognitive knowledge while executing task.

The content broadly covers various systems and sub systems of vehicle. Repair and Maintenance of various components such as Motors, Motor controller, Battery Pack, Battery Management System, Charging System, Regenerative Braking. The broad components covered under Professional Skill subject are as below:

FIRST YEAR: In this year, the contents cover from safety aspect related to trade, basic fitting operation viz. assembly and disassembly of major components, their understanding of functions related to operation of EV. It covers various systems and sub-systems such as power train, chassis, body engineering systems, Safety System etc and operates garage equipment. It also covers repair, and maintenance of automobile electrical components and general vehicle systems and sub systems. Troubleshoot of electrical components of vehicle and ascertain repair.

The practical training starts with understanding basic instruments, gauges, components of EV. It also covers various systems and sub systems of vehicle, electrical system, tools, motor calculations, electric transmission and propulsion system along with testing, replacing and diagnosing the components related to EV.

SECOND YEAR: In this year, Electric Vehicle components, such as Motor, Motor Controller, Battery Pack, Battery Management System, Charging System, regenerative braking etc. In addition to above comparison of performance of EV and IC engine vehicles is included.

The practical on electric, electronic and EV systems is covered. DC/DC convertor, regenerative braking, HVAC/FATC etc. In addition, EV symbols, switches, control units and communication protocols are covered. Disassemble and assemble various components of EV along with understanding different fasteners and hand tools. And finally, fault finding & breakdown maintenance of related components and systems is done. Then practical's on total repair, testing and diagnosing the systems and related circuits are done. Followed by preventive and breakdown maintenance of associated components.

2.1 GENERAL

The Directorate General of Training (DGT) under Ministry of Skill Development & Entrepreneurship offers a range of vocational training courses catering to the need of different sectors of economy/ Labour market. The vocational training programmes are delivered under the aegis of Directorate General of Training (DGT). Craftsman Training Scheme (CTS) with variants and Apprenticeship Training Scheme (ATS) are two pioneer schemes of DGT for strengthening vocational training.

Mechanic Electric Vehicle Trade under CTS is delivered nationwide through a network of ITIs. The course is of two years duration. It mainly consists of Domain area and Core area. In the Domain area (Trade Theory & Practical) imparts professional skills and knowledge, while Core area (Employability Skills) imparts requisite core skill, knowledge and life skills. After passing out of the training programme, the trainee is awarded National Trade Certificate (NTC) by DGT which is recognized worldwide.

Candidates broadly need to demonstrate that they are able to:

- Read & interpret technical parameters/documentation, plan and organize work processes, identify necessary materials and tools;
- Perform task with due consideration to safety rules, accident prevention regulations and environmental protection stipulations;
- Apply professional knowledge, core skills & employability skills while performing the job and machining work.
- Check the job/components as per drawing for functioning identify and rectify errors in job/components.
- Document the technical parameters related to the task undertaken.

2.2 PROGRESSION PATHWAYS:

- Can join industry as EV Technician and will progress further as Senior Technician,
 Supervisor and can rise up to the level of Manager.
- Can become Entrepreneur in the related field.
- Can appear in 10+2 examination through National Institute of Open Schooling (NIOS) for acquiring higher secondary certificate and can go further for General/ Technical education.

- Can take admission in diploma course in notified branches of Engineering by lateral entry.
- Can join Apprenticeship programme in different types of industries leading to National Apprenticeship certificate (NAC).
- Can join Crafts Instructor Training Scheme (CITS) in the trade for becoming instructor in ITIs.
- Can join Advanced Diploma (Vocational) courses under DGT as applicable.

2.3 COURSE STRUCTURE:

Table below depicts the distribution of training hours across various course elements during a period of two years:

S No.	Course Flowert	Notional Training Hours	
	Course Element	1 st Year	2 nd Year
1	Professional Skill (Trade Practical)	840	840
2	Professional Knowledge (Trade Theory)	240	300
3	Employability Skills	120	60
	Total	1200	1200

Every year 150 hours of mandatory OJT (On the Job Training) of industry opportunity not available the group project is mandatory.

4	On the Job Training (OJT)/ Group Project	150	150
---	--	-----	-----

2.4 ASSESSMENT & CERTIFICATION

The trainee will be tested for his skill, knowledge and attitude during the period of course through formative assessment and at the end of the training programme through summative assessment as notified by the DGT from time to time.

- a) The Continuous Assessment (Internal) during the period of training will be done by **Formative Assessment Method** by testing for assessment criteria listed against learning outcomes. The training institute have to maintain individual *trainee portfolio* as detailed in assessment guideline. The marks of internal assessment will be as per the formative assessment template provided on www.bharatskills.gov.in
- b) The final assessment will be in the form of summative assessment. The All India Trade Test for awarding NTC will be conducted by controller of examinations, DGT as per the guideline. The pattern and marking structure is being notified by DGT India from time to time. The learning outcome and assessment criteria will be basis for setting question papers for final assessment.

The examiner during final examination will also check individual trainee's profile as detailed in assessment guideline before giving marks for practical examination.

2.4.1 PASS REGULATION

For the purposes of determining the overall result, weightage of 100% is applied for six months and one year duration courses and 50% weightage is applied to each examination for two years courses. The minimum pass percent for Trade Practical and Formative assessment is 60% & for all other subjects is 33%.

2.4.2 ASSESSMENT GUIDELINE

Appropriate arrangements should be made to ensure that there will be no artificial barriers to assessment. The nature of special needs should be taken into account while undertaking assessment. Due consideration should be given while assessing for teamwork, avoidance/reduction of scrap/wastage and disposal of scrap/wastage as per procedure, behavioral attitude, sensitivity to environment and regularity in training. The sensitivity towards OSHE and self-learning attitude are to be considered while assessing competency.

Assessment will be evidence based, comprising some of the following:

- Job carried out in labs/workshop
- Record book/ daily diary
- Answer sheet of assessment
- Viva-voce
- Progress chart
- Attendance and punctuality
- Assignment
- Project work
- Computer based multiple choice question examination
- Practical Examination

Evidences and records of internal (Formative) assessments are to be preserved until forthcoming examination for audit and verification by examination body. The following marking pattern to be adopted for formative assessment:

Performance Level	Evidence
(a) Mark in the range of 60 -75% to be allotted during assessment	

For performance in this grade, the candidate should produce work which demonstrates attainment of an acceptable standard of craftsmanship with occasional guidance, and due regard for safety procedures and practices.

- Demonstration of good skill in the use of hand tools, machine tools and workshop equipment.
- 60-70% accuracy achieved while undertaking different work with those demanded by the component/job.
- A fairly good level of neatness and consistency in the finish.
- Occasional support in completing the project/job.

(b) Mark in the range of 75%-90% to be allotted during assessment

For this grade, a candidate should produce work which demonstrates attainment of a reasonable standard of craftsmanship, with little guidance, and regard for safety procedures and practices.

- Good skill levels in the use of hand tools, machine tools and workshop equipment.
- 70-80% accuracyachieved while undertaking different work with those demanded by the component/job.
- A good level of neatness and consistency in the finish.
- Little support in completing the project/job.

(c) Mark in the range of above 90% to be allotted during assessment

For performance in this grade, the candidate, with minimal or no support in organization and execution and with due regard for safety procedures and practices, has produced work which demonstrates attainment of a high standard of craftsmanship.

- High skill levels in the use of hand tools, machine tools and workshop equipment.
- Above 80% accuracy achieved while undertaking different work with those demanded by the component/job.
- A high level of neatness and consistency in the finish.
- Minimal or no support in completing the project.

Mechanic Electric Vehicle; repairs overhauls and services motor vehicles to keep them in good running condition. Examines vehicle to ascertain nature and location of defects either by running engine or driving vehicle on road. Dismantles partially or completely defective unit or parts of vehicle such as DC/DC converters, rear axle, front axle, steering assembly, radiator, etc. According to nature of repairs to be done, using hoist, jack, pullers, hand tools and other devices. Replaces or repairs defective parts of gear box, rear axle, steering mechanism, Configures BMS with software application, SoC mapping for charging and discharging, Inspecting & testing a battery after charging, safe storage, handle, and dispose of high voltage battery systems, Diagnose, repair, and test high voltage battery systems. Diagnose, repair, and testing of EV battery controls etc. and sets them right ensuring correct alignment, clearance, meshing of gears, specified movements and operations. Relines and builds brakes, sets wheel alignment, adjust, steering, clutch, hand brakes etc. fits new or repaired accessories and body parts, makes electrical connection, and performs other tasks to effect repairs. Lubricates, joints, tightens loose parts, tests performance of vehicle by driving on road and makes necessary adjustments to attain desired standard. May assemble complete vehicle from finished components.

Maintenance Technician-Service Workshop; maintains and manages tools and equipment used in the workshop.

AC Specialist is responsible for installing, servicing and repairing an air conditioning system of a vehicle. The individual also performs routine maintenance of the various components associated with the air-conditioning system of the vehicle.

Fitter Automobile; attends to minor repairs to motor vehicles under guidance of Mechanic Automobile. Receives instructions from Mechanic, Automobile about tasks to attend. Jacks up vehicle to required height for repair in convenient position where necessary. Removes nuts and bolts to dismantle parts such as water pump assembly, fuel pumps assembly, distributor, generator, steering, brakes, transmission and suspension systems, etc. Decarbonizes battery under guidance of mechanic. Tightens loose parts, lubricates joints, does minor repairs, replacements and adjustments and performs simple fitting operations such as filing, chipping, grinding etc. May work in workshops or garage. May drive vehicle on road. May be designated as Service Mechanic if engaged in cleaning, polishing, oiling and greasing vehicles and do minor routine adjustments as included in servicing.

Auto Service Technician - Mechanic is responsible for the repair and routine servicing and maintenance (including electrical and mechanical aggregates) of vehicles.

4. GENERAL INFORMATION

Name of the Trade	Mechanic Electric Vehicle
Trade Code	DGT/2026
NCO - 2015	7231.0100, 7231.0101, 7231.0102, 7231.0400, 7231.0107
NOS Covered	ASC/N1435, ASC/N1436, ASC/N1437, ASC/N9420, ASC/N9421, ASC/N9433, ASC/N9434
NSQF Level	Level – 4
Duration of Craftsmen Training	Two years (2400 hours + 300 hours OJT/Group Project)
Entry Qualification	Passed 10 th class examination
Minimum Age	14 years as on first day of academic session.
Eligibility for PwD	LD, CP, LC, DW, AA, BLIND, LV, DEAF, HH, AUTISM, ID, SLD
Unit Strength (No. Of Students)	24 (There is no separate provision of supernumerary seats)
Space Norms	192 Sq. m
Power Norms	5 KW
Instructors Qualification for	
1. Mechanic Electric Vehicle Trade	B.Voc/ Degree in Mechanical Engineering from AICTE/UGC recognized Engineering College/ university with one-year experience in the relevant field. OR
	03 years Diploma in Mechanical Engineering from AICTE recognized board of technical education or relevant Advanced Diploma (Vocational) from DGT with two years' experience in the relevant field. OR
	NTC/NAC passed in the trade of "Mechanic Electric Vehicle" with three years' experience in the relevant field.
	Essential Qualification: Relevant National Craft Instructor Certificate (NCIC) in any of the variants under DGT. Must Possess valid LMV driving License.
	NOTE: - Out of two Instructors required for the unit of 2(1+1), one

	must have Degree/Diploma and other must have NTC/NAC qualifications. However, both of them must possess NCIC in any of its variants.
2. Employability Skill	MBA/ BBA / Any Graduate/ Diploma in any discipline with Two years' experience with short term ToT Course in Employability Skills from DGT institutes.
	(Must have studied English/ Communication Skills and Basic Computer at 12th / Diploma level and above) OR
	Existing Social Studies Instructors in ITIs with short term ToT Course in Employability Skills from DGT institutes.
3. Minimum Age for Instructor	21 Years
List of Tools and Equipment	As per Annexure – I

Learning outcomes are a reflection of total competencies of a trainee and assessment willbe carried out as per the assessment criteria.

5.1 LEARNING OUTCOMES (TRADE SPECIFIC)

FIRST YEAR:

- 1. Identify and handle different types of tools and workshop equipment in the Auto workshopfollowing safety precautions. (NOS: ASC/N1435)
- Check, identify and interpret different types of vehicles and their specifications. (NOS: ASC/N1435)
- 3. Identify the electrical circuits and test their parameters by using electrical measuring instruments, and the basic electronic circuits and analyse their circuit functioning. (NOS: ASC/N1435)
- Identify and study of Electric vehicle components and Performance comparison of EV and IC engine vehicles. (Components of Electric Vehicle such as Motor, Motor Controller, Battery Pack, Battery Management System, Charging System etc.) (NOS: ASC/N1435)
- 5. Check the automobile systems and sub-systems such as power train, chassis, transmission system, different suspension systems, tyres & wheels (Functions, tyre marking, Tyre Designs), body engineering systems, Safety System etc. and operate garage equipment. (NOS: ASC/N1435, ASC/N1436)
- 6. Trace and Test all Electrical, Electronic components & circuits and assemble circuit to ensure functionality of system. (NOS: ASC/N1435)
- 7. Diagnose, repair and perform maintenance of automobile electrical components & general vehicle architecture. (NOS: ASC/N1435, ASC/N1437)
- 8. Perform checking and troubleshooting of wiring circuits HV and LV and the electrical components in the electric vehicle. (NOS: ASC/N1435, ASC/N1437)
- 9. Dismantle, diagnose & rectify the defects in vehicle and assemble the vehicle components to ensure functionality of vehicle. (NOS: ASC/N1435, ASC/N1437)
- 10. Read and apply engineering drawing for different application in the field of work (NOS: ASC/N9420)
- 11. Demonstrate basic mathematical concept and principles to perform practical operations. Understand and explain basic science in the field of study (NOS: ASC/N9421)

SECOND YEAR:

- 12. Apply the knowledge of power transmission system in electric vehicle, its basic components and functions; electric vehicle motor, its speed control technique and motor controller. (NOS: ASC/N1435, ASC/N1437)
- Identify and develop Battery Pack Components, monitor and check performance of high voltage rechargeable energy storage system and Battery Management System. (NOS: ASC/N1435)
- 14. Perform battery testing, charging and cycling operations. (NOS: ASC/N1435, ASC/N1437)
- 15. Test and troubleshoot Accessory and Auxiliary Components Power Steering, Braking and HVAC Comfort System. (NOS: ASC/N1435, ASC/N1437)
- 16. Operate and troubleshoot Electric Vehicle Charging Ecosystem. (NOS: ASC/N9433)
- 17. Drive an Electric Vehicle following the safety rules for driving. (NOS: ASC/N1435)
- 18. Diagnose, repair, and testing of EV vehicles and subsystems and EV components. (NOS: ASC/N1435, ASC/N1437)
- 19. Demonstrate regulatory requirements for electric vehicle and new trends in electric vehicle. (NOS: ASC/N9434)
- 20. Read and apply engineering drawing for different application in the field of work(NOS: ASC/N9420)
- 21. Demonstrate basic mathematical concept and principles to perform practical operations. Understand and explain basic science in the field of study (NOS: ASC/N9421)

6. ASSESSMENT CRITERIA

LEARNING OUTCOME	ASSESSMENT CRITERIA
	FIRST YEAR
1. Identify and handle different types of tools and workshop equipment in the Auto workshop following safety precautions. (NOS: ASC/N1435) 2. Check, identify and interpret different types of vehicles	Carry out First aid and Fire safety. Follow safe handling of batteries & equipment and Periodic testing of the same. Describe the purpose, use of auto hand tools. Learning Usage of tools & Machinery in this trade. Occupational Safety & Health guidelines. List the safety rules for tools. Identify various types of vehicles (Classification). Identify the different vehicle specification data and information.
and their specifications. (NOS: ASC/N1435)	
3. Identify the electrical	Carry out soldering operation.
circuits and test their	Carry out testing of components in electric circuits.
parameters by using electrical measuring	Carry out Crimping of wires.
instruments, and the basic	Carry out diagnosis of various electric circuits.
electronic circuits and	Plan work in compliance with standard safety norms.
analyse their circuit	Identify and test different types of basic electronic components.
functioning (NOS: ASC/N1435)	Plan to construct and test various Logic Gates.
4. Identify and study of Electric	Interpret Indian Market Data.
vehicle components and	Identify different types of Electric Vehicle Technology (BEV, HEV,
Performance comparison of	PHEV and FCEV), Architecture of Electric Vehicle.
EV and IC engine vehicles.	Identify main components of electric vehicle and their function
(Components of Electric	Verify component specification sheet.
Vehicle such as Motor, Motor Controller, Battery Pack, Battery Management System, Charging System etc.) (NOS: ASC/N1435)	Trace the High Voltage wiring on the vehicle. Compare performance of EV and IC engine vehicles.

5. Check the automobile systems and sub-systems such as powertrain, chassis, transmission system, different suspension systems, tyres& wheels (Functions, tyre marking, Tyre Designs), body engineering systems, Safety System etc. and operate garage equipment. (NOS: ASC/N1435, ASC/N1436)	Identify main systems and sub systems of Automobile and specify their function (transmission and driveline systems). Sketch General vehicle Architecture system. Draw typical layouts and Identify nomenclature of auto electrical systems, chassis and Monocoque body, Steering Systems, Suspension system, Brakes, wheels &tyres.
6. Trace and Test all Electrical, Electronic components & circuits and assemble circuit	Explain various terms such as +ve cycle, -ve cycle, Frequency, Time period, RMS, Peak, Instantaneous value. Single phase and Three phase supply.
to ensure functionality of system.	Identify type of electrical cables and their Specifications. Types of wires & cables, standard wire gauge (SWG).
(NOS: ASC/N1435)	Identify Fuses & circuit breakers, Ballast resistor, Stripping wire insulation, cable color codes and sizes.
7. Diagnose, repair and perform maintenance of	Identify and interpretation of automobile electrical architecture & power supply systems.
automobile electrical components & general	Ascertain and select tools and materials for the job and make this available for use in a timely manner.
vehicle architecture.	Plan work in compliance with standard safety norms.
(NOS: ASC/N1435, ASC/N1437)	Carryout the diagnostic procedure for the following troubles in the electrical accessories: - No horn, poor horn, continuous horn Wiper and washer no operation, continuous operation, Intermittent operation Power window no operation Power Door lock no operation Immobilizer system and keyless entry no operation Trouble (Error indication) in Automatic seat belt system Trouble (Error indication) in Air bag system.
8. Perform checking and	Select appropriate electric raw materials as per the requirement.

troubleshooting of wiring circuits - HV and LV and the	Diagnose and carry out remedial action as per the OEM Manual - Horns, Wiper Motor, Power Windows.
electrical components in the	Follow personal and shop safety procedures and use appropriate
electric vehicle.	attire and protective equipment.
	Plan work in compliance with standard safety norms.
(NOS: ASC/N1435, ASC/N1437)	Operate equipment according to safety protocols and identify tools,
	tests equipment and service procedures used in the servicing of EV and HEV's.
	Identify components and their locations indicated on the wiring
	diagram.
	Diagnose, repair, and test DC/DC converters.
	Perform diagnosis of Electric Vehicle.
09. Dismantle, diagnose &	Demonstrate safe handling of lifting equipment.
rectify the defects in vehicle	Ascertain and select tools and materials for the job and make this
and assemble the vehicle	available for use in a timely manner.
components to ensure	Plan work in compliance with standard safety norms.
functionality of vehicle.	Test the various sensors fitted on the vehicle.
(NIOC: ACC/NI4.42E, ACC/NI4.427)	Identify the problems in the vehicle.
(NOS: ASC/N1435, ASC/N1437)	Repair the fault. Replace the faulty components (if necessary).
	Perform sequencing and identifying parts at the time of dismantle and assemble.
	Carryout assembly and disassembly of simple automobile system (such as front Mirror).
10. Read and apply engineering drawing for different	Read & interpret the information on drawings and apply in executing practical work.
application in the field of	Read &analyze the specification to ascertain the material
work.	requirement, tools and assembly/maintenance parameters.
	Encounter drawings with missing/unspecified key information and
(NOS: ASC/N9420)	make own calculations to fill in missing dimension/parameters to
	carry out the work.
11. Demonstrate basic	Solve different mathematical problems
mathematical concept and principles to perform practical operations. Understand and explain basic science in the field of study. (NOS: ASC/N9421)	Explain concept of basic science related to the field of study

SECOND YEAR		
12. Apply the knowledge of power transmission system in electric vehicle, its basic components and functions; electric vehicle motor, its speed control technique and motor controller.	Identify types of motors.	
	Working Principle of Motor (Study-state, volts, Hertz control, electronic control).	
	Speed control technique.	
	Power transmission system in electric vehicle and its basic	
	components and its functions.	
	Motor cooling system and working component.	
(NOS: ASC/N1435, ASC/N1437)	Motor controller working principle and basic components.	
13. Identify and develop Battery	Identify different cell chemistries.	
Pack Components, monitor	Identify different cell geometries.	
and check performance of		
high voltage rechargeable energy storage system and	Identification of various sensors installed - Battery Temperature Mapping.	
Battery Management	Plan work in compliance with standard safety norms.	
System.	Perform Verification of cell performance against supplier data sheet	
,	Perform Interfacing of BMS with Battery Pack configuration of BMS	
	with software application.	
(NOS: ASC/N1435)	Carry out Voltage, Current and Temperature Measurement with BMS.	
	Verify SoC mapping for charging and discharging.	
	Perform mapping of battery SoH using data to map Battery SoH.	
	Plan work in compliance with standard safety norms.	
14. Perform battery testing, charging and cycling	Perform safe storage, handle, and dispose of high voltage battery systems.	
operations	Diagnose, repair, and test high voltage battery systems.	
	Plan work in compliance with standard safety norms.	
(NOS: ASC/N1435,	Perform Replacement of defective Battery Module of 48V Module	
ASC/N1437)	Systems.	
	Diagnose, repair, and testing of EV battery controls.	
15. Test and troubleshoot	Ascertain and select tools and materials for the job and make this	
Accessory and Auxiliary	available for use in a timely manner.	
Components - Power	Prepare the job for sawing, filling, bending.	
Steering, Braking and HVAC	Plan work in compliance with standard safety norms.	
Comfort System	Produce component by observing standard procedure.	
,		

	Check for dimensional accuracy as per standard procedure.
(NOS: ASC/N1435, ASC/N1437)	Avoid waste, ascertain unused materials and components for disposal, store these in an environmentally appropriate manner and
7.56,711.57,	prepare for disposal.
	Ensure the workshop cleanliness.
16. Operate and troubleshoot Electric Vehicle Charging	Identify Type of Charger and Voltage Levels Operate Standard Chargers.
Ecosystem.	Determine Charging Time and charging inputs under various conditions.
(NOS: ASC/N9433)	Diagnosis and remedy for Charger not responding, Charger not delivering expected current.
(NO3. A3C/N3433)	Plan work in compliance with standard safety norms.
	Ensure the workshop cleanliness.
17. Drive an Electric Vehicle	Carry out Drive by Wire Architecture.
following the safety rules	Troubleshoot and Repair Accelerator Pedal.
for driving.	Troubleshoot and Repair - Brake not working.
(NOS: ASC/N1435)	Drive an Electric Vehicle.
(110011100)1112100)	Plan work in compliance with standard safety norms.
18. Diagnose, repair, and	Diagnose, repair, and test vehicle charging interface/infrastructure.
testing of EV vehicles and	Diagnose, repair, and test regenerative braking.
subsystems and EV components.	Diagnose, repair, and test thermal systems management and control.
(NOS: ASC/N1435,	Diagnose and repair Braking system.
ASC/N1437)	Diagnose and repair e-Compressor.
	Diagnose, repair, and test high voltage electric distribution systems
	Diagnose, repair, and test power electronic circuitry for electric drive systems.
	Check DTCs and erase them as per manufacturer's guidelines.
	Carry out test and diagnose EV components.
	Select appropriate Tools required for testing.
	Plan work in compliance with standard safety norms.
	Ensure workshop cleanliness.
	Ensure workshop dearniness.
10. Domonstrata regulatera	Electric vehicle regulations
19. Demonstrate regulatory	Electric vehicle regulations.

Electric vehicle recycling and reuse.
Government policies for E vehicles.
Autonomous vehicle system architecture.
Autonomous vehicle LIDAR system.
Autonomous vehicle object detection and AI cameras system.
Autonomous vehicle ADAS system
Autonomous vehicle collision detection system.
Read & interpret the information on drawings and apply in executing practical work.
Read & analyze the specification to ascertain the material
requirement, tools and assembly/maintenance parameters.
Encounter drawings with missing/unspecified key information and make own calculations to fill in missing dimension/parameters to carry out the work.
Solve different mathematical problems
Explain concept of basic science related to the field of study

SYLLABUS - MECHANIC ELECTRIC VEHICLE **FIRST YEAR** Reference **Professional Skills Professional Knowledge** Learning (Trade Practical) (Trade Theory) **Duration Outcomes** With Indicative Hours Identify and All necessary guidance to be Professional 1. Importance of trade Skill 50 Hrs.; handledifferent training, List of tools & provided to the newcomers types of tools Machinery used in the to become familiar with the Professional and workshop trade. 		hrs)	
Professional Skill 75 Hrs; Professional Knowledge 15 Hrs	Identify the electrical circuits and test their parameters by using electrical measuring instruments, and the basic electronic circuits and analysetheir circuit functioning. (NOS: ASC/N1435)	16. Practice in joining wires using soldering Iron, Construction of Simple electrical circuits, Crimping of connectors. (10 hrs) 17. Measuring of current, voltage and resistance using digital multimeter, practice. (10 hrs) 18. Continuity test for fuses, jumper wires, fusible links, circuit breakers. (05 hrs) 19. Identify and Diagnose series, parallel, series-parallel circuits using Ohm's law, Check electrical (05 hrs) 20. Prepare circuit with a test lamp, perform voltage drop test in circuits using multimeter. (05 hrs) 21. Measure current flowusing multimeter /ammeter, use of service manual wiring diagram for troubleshooting. (10 hrs) 22. Testing of relay and solenoids and its circuit. (05 hrs) 23. Testing of relay and solenoids and its circuit. (05 hrs) 24. Testing of relay and solenoids and its circuit. (05 hrs) 25. Testing of relay and solenoids and its circuit. (05 hrs) 26. Prepare circuit with a test lamp, perform voltage drop test in circuits using effects, Capacitors and its applications, Capacitors in series and parallel Cells in series and parallel Cells in series and parallel Cells in series and parallel centry, Photovoltaic energy, Photovoltaic energy, Photovoltaic energy, Piezoelectric energy, Electromagnetic induction, Relays, Solenoids, Primary & Secondary windings,	
		23. Identify and test power and signal connectors for continuity. (03 hrs) Transformers, stator and rotor coils.	

- 24. Identify and test different type of Diodes. (04 hrs)
- 25. NPN & PNP Transistors for its functionality. (03 hrs)
- 26. Difference between MOSFET and IGBT. (03 hrs)
- 27. Construct and test simplelogic circuits OR, AND & NOT and Logic gates using switches. (04 hrs)
- 28. Construct circuit to read temperature and pressure sensor. (04 hrs)
- 29. Construct PWM generator. (04 hrs)

Basic electronics: Electrical and Electronic Components:

 Switches Description of Normally open, Normally closed, single pole single throw switch (SPST), ganged, and mercury switches used in Automobile circuit.

Description of Relay, ISO Relays, Solenoids, Buzzers. Resistors- Description of different type of resistors and their colourcodes. -Fixed, stepped, and variable resistors Rheostat, Potentiometer. Description of Diodes, Diode identification and ratings, zener diodes, Avalanche diodes, Light emitting diodes, photo diodes and clamping diodes. Transistors- Description of NPN, PNP, field-effect, transistor (FET), IGBT, phototransistors. Description of Integrated circuits. Circuit protection **Devices-Description of** fuses, different type of fuses-glass or ceramic, blade and bullet or cartridge fuses. Fusible links, maxi fuses, circuit breaker, Positive Temperature coefficient (PTC) resistor device Logic gates-OR, AND & NOT and

Logic gates using switches.

		Pedal not working. (10 hrs)	and driver dependency.
			(05 hrs)
			Electronic Controlled

		161. Troubleshoot and Repair- Brake not working. (10 hrs)162. Drive an EV. (10 hrs)	Brake: Principle of Regenerative Braking., Regenerative Brake cooperative control operation. Riding Modes - Sport and Comfort, Driver Behavior, Economy mode. (04 hrs)
Professional Skill 300 Hrs.; Professional Knowledge 90 Hrs.	Diagnose, repair, and testing of EV vehicles and subsystems and EV components. (NOS: ASC/N1435, ASC/N1437)	163. Trace the light circuit test bulbs, align head lamps, Aiming headlights. (07 hrs) 164. Changing a headlight bulb, checking of a head light switch and to replace if faulty. (08 hrs.) 165. Trace the wiring circuit of lighting system. (10 hrs) 166. Remove and install wiper motors and wiper switches. (07 hrs.) 167. Hands-on and practice to Identify different location of various ECUs in vehicle. Identify antitheft system. (15 hrs) 168. Remove and install new horn. (03 hrs) 169. Practice on Identifying Proximity sensor, Parking sensor, crash sensor, Rain and Light Sensor. (30 hrs) 170. Remove and install power door lock and tracing the circuit. (10 hrs) 171. Identification of Air conditioning components. (25 hrs) 172. Hands on adjustment of A/C inside the cabin. (10 hrs)	Lighting system, Lamps/light bulbs (Halogen, Xenon and LED), Lamp/light bulb information, LED lighting. Headlight & dimmer circuits, Park & taillight circuits, Brake light circuits, turn signal circuit, Cornering lights, Fog lights circuit, interior lights- courtesy, reading and instrument panel lights, Smart lighting, Reverse lights Temperature monitoring thermostat. Air-conditioning ECU, Blower speed control, Ventilation systems. Accessories: Horn circuit, wiper circuit, power window components and circuit Power door lock circuit, automatic door lock circuit. Antitheft system, immobilizer. (20 hrs)

maintenance of FATC/ HVAC machine. (15 hrs) 174. Demonstrate working of grinding machine. (15 hrs) 175. Automatic transmission Identification of Automatic transmission components and related sensors. (15 hrs) 176. Perform RCA and tracing of wiring circuit in auto transmission. (15 hrs) 177. Perform Electronic Power Steering Identification of EPS components and related sensors. (15 hrs)	Communication between different ECUs. LIN Bus, MOST Bus, CAN Bus. (10 hrs)
178. Hands-on for RCA and Tracing wiring circuit in EPS. (10 hrs) 179. Practice on Recognition of EV symbols. (10 hrs) 180. Tracing wiring circuit of parking sensor, copassenger sensor and seat belt. (10 hrs) 181. Check the accuracy of grinding machine after assembly. (10 hrs) 182. Tracing wiring circuit of parking sensor, copassenger sensor and seat belt. (10 hrs)	Electronic control transmission Continuously variable transmission (C.V.T.) - Description of Electric power assisted steering, Basic electric power steering operation. (30 hrs)

		183. Practice of safety precautions and procedures to be observed while working with EV Kit and related tools. (25 hrs) 184. Study the Gear Box and explain the function of Gear Box & calculate gear ratio of it. (15 hrs) 185. Form internal threads with taps to standard size. (10 hrs)	Automatic Transmissions - Torque converters, Torque converter principles, drive plate, Converter operation, Torque multiplication, Fluid flow, Heat exchanger, Lock-up converters, clutches. Planetary gearing. (30 hrs)
Professional Skill 65 Hrs.; Professional Knowledge 18 Hrs.	Demonstrate regulatory requirements for electric vehicle and new trends in electric vehicle. (NOS: ASC/N9434)	186. To list out various requirements for electric vehicle. (25 hrs) 187. Understanding recycling and reuse vehicle. (10 hrs) 188. Understanding latest development. (10hrs) 189. Understanding autonomous vehicle system. (10 hrs) 190. Understanding of autonomous vehicle system components like LIDAR, object detection, AI cameras, ADAS, collision detection sensor. (10 hrs)	Study of electric vehicle regulations. Study of electric vehicle recycling and reuse. Study of advancement of electric vehicle. Study of autonomous vehicle system architecture. (18 hrs)

	ENGINEERING DRAWING: (40 Hrs.)			
Professional Knowledge ED- 40 Hrs. WCS- 26 Hrs.	Read and apply engineering drawing for different application in the field of work. (NOS: ASC/N9420)	ENGINEERING DRAWING: (40 Hrs.) Reading of Electrical, Electronic & Mechanical Sign and Symbols used in Automobile. Sketches of Electrical, Electronic & Mechanical components used in Automobile. Reading of Electrical wiring diagram and Layout diagram used in Automobile. Drawing of Electrical circuit diagram used in Automobile. Drawing of Block diagram of Instruments & equipment of trades		
	WORKSHOP	CALCULATION & SCIENCE: (26 Hrs)		
	Drawing of Block diagram of Instruments & equipment			

Project Work/ Industrial Visit: -

Broad Area:

- a) Design and soldering of required output battery bank.
- b) System balancing of electric two wheelers.
- c) Visit to electric vehicle manufacturing plant. HVAC

SYLLABUS FOR CORE SKILLS

1. Employability Skills (Common for all CTS trades) (120 Hrs. + 60 Hrs.)

Learning outcomes, assessment criteria, syllabus and Tool List of Core Skills subjects which is common for a group of trades, provided separately in www.bharatskills.gov.in

	LIST OF TOOLS AND EQUIPMENT			
	MECHANIC ELECTRIC	VEHICLE (for Batch of 24 Candidates)		
S No.	Name of the Tools & Equipment	Specification	Quantity	
A. TRA	NINEES TOOL KIT			
1.	Steel rule	30 cm & 60 cm graduated both in English & Metric units	24 Nos.	
2.	Hand Gloves	_	24 Nos.	
3.	Safety Shoes	_	24 Nos.	
4.	Helmet	_	24 Nos.	
B. TO	OLS, INSTRUMENTS AND GENERAL S	SHOP OUTFIT		
5.	"V" block	V-Block pair 7 cm with clamps	10 Nos.	
6.	"V" block	V-Block 15 cm with clamps	10 Nos.	
7.	Micrometer Outside	0 – 50 mm outside	10 Nos.	
8.	Vernier Caliper	0-15 cm	10 Nos.	
9.	Micrometer Inside	up to 20 m006D	10 Nos.	
10.	Metal L	Metal - L - 15cm	10 Nos.	
11.	Metal L	Metal - L - 30cm	10 Nos.	
12.	Angle Plate	10 x 20 cm.	10 Nos.	
13.	Spirit Level	15 cm metal	10 Nos.	
14.	File warding	15 cm smooth	10 Nos.	
15.	File knife edge	15 cm smooth	10 Nos.	
16.	File cut saw	15 cm smooth	10 Nos.	
17.	File feather edge	15 cm smooth	10 Nos.	
18.	File triangular	15 cm smooth	10 Nos.	
19.	File round	20 cm second cut	10 Nos.	
20.	File square	15 cm second cut	10 Nos.	
21.	File square	25 cm second cut	10 Nos.	
22.	File triangular	20 cm second cut.	10 Nos.	
23.	File flat	30 cm second cut.	10 Nos.	
24.	File flat	20 cm bastard	10 Nos.	
25.	File flat	30 cm bastard.	10 Nos.	

26.	File Swiss type	Needle set of 12.	10 Nos.
27.	File half round	25 cm second cut.	10 Nos.
28.	File half round	25 cm bastard.	10 Nos.
29.	File round	30 cm bastard.	10 Nos.
30.	File hand	15 cm second cut.	10 Nos.
31.	Card file.		10 Nos.
32.	Oil Stone	15 cm x 5 cm x 2.5 cm	10 Nos.
33.	Pliers combination	15 cm	10 Nos.
34.	Blow Lamp	0.50 liters.	10 Nos.
35.	Spanner	D.E. 6 -26 mm set of 10 pcs.	10 Nos.
36.	Spanner adjustable	15 cm	10 Nos.
37.	Box spanner	Set 6-25 mm set of 8 with Tommy bar.	10 Nos.
38.	Glass magnifying	7 cm	10 Nos.
39.	Clamp toolmaker	5 cm and 7.5 cm set of 2.	10 Nos.
40.	Clamp "C"	5 cm	10 Nos.
41.	Clamp "C"	10 cm	10 Nos.
42.	Scraper flat	15 cm.	10 Nos.
43.	Scraper triangular	15 cm	10 Nos.
44.	Scraper half round	15cm	10 Nos.
45.	Chisel	cold 9 mm cross cut 9 mm diamond.	10 Nos.
46.	Chisel	cold 19 mm flat	10 Nos.
47.	Chisel	cold 9 mm round nose.	10 Nos.
48.	Motorized +Tennon Saw		10 Nos.
49.	Hand hammer	1 kg. with handle Ball Peen	10 Nos.
50.	Hacksaw	frame fixed 30 cm.	10 Nos.
51.	Mallets Wooden		10 Nos.
52.	V-Block, Files, mallets, screwdrivers, chisels, etc.		10 Nos.
53.	Hand Drilling Machine	Rated input power: 600W, Power output: 301W, Rated torque: 1.8 Nm	10 Nos.
54.	Metal Saw	No-Load Speed: 3,800 rpm, Sawblade diameter 355 mm, Saw blade bore 25.4 mm	10 Nos.
55.	Straight Grinder HEAVY DUTY with attachments	No-Load Speed: 10000 – 30000 rpm, Rated power output: 380W	10 Nos.
56.	Professional Air Blower	Power consumption: 820 W, No-load speed: 16000rpm, Flow rate: 0-	10 Nos.

		4.5	
		m3/s	
57.	Jig Saw Portable	Input Power: 900W, No-load speed: 11,000 rpm, Disc Diameter: 100	10 Nos.
58.	Hammer Drill Wired	Drill type: hammer, optimum power Transfer	10 Nos.
59.	Hand Held Sander / Polisher	No Load Speed: 11000 rpm	10 Nos.
60.	Digital Dial Torque Wrench	Range: 20 to 280 Nm	10 Nos.
61.	Lifting Tackle/Sling	1 Ton×2mtr	10 Nos.
62.	Impact Wrench	1/2 inch drive	10 Nos.
63.	Laser Light Pen		10 Nos.
64.	Surface Plate	Cast iron	10 Nos.
65.	Digital Screw Pitch Gauge	Working voltage: 3.0 V / DC, Measure precision: 0.1 degree	10 Nos.
66.	Laser Distance Measurement Instrument	Levelling Accuracy (Vial): +/- 0.2degree, Measuring Accuracy Typical: +/- 1/16 inch (1.5 mm)	10 Nos.
67.	Palm Scale	Capacity-500gms, Least Count-0.1g	10 Nos.
68.	Allen Screwdriver Wrench Tool	6Pcs T Handle Ball Ended Hex Key	10 Nos.
69.	Universal Quick Adjustable Multi-function Wrench Spanner	Range: 6-32mm	10 Nos.
70.	Double Ended Wrench Hex Socket Spanner	8 In 1, Range: 6-32mm	10 Nos.
C. GEN	NERAL MACHINERY / SOFTWARE IN	STALLATIONS (AUTOMOBILE BOM)	
71.	Car lift -4 Ton	Hydraulic Lift Model with Lifting Capacity 4 Ton	1 No.
72.	2 Wheeler Bike or Scooter Assembly Set		1 No.
73.	Transmission / Gearbox Demo Kit		1 No.
74.	Cooling System components arranged on a stand with electric motor		1 No.
75.	Exhaust System		1 No.
76.	Mini commercial Vehicle Chassis Structure		1 No.
77.	Rear Axel		1 No.

78	Suspension System-front and rear on stand		1 No.
79.	Steering Wheel and Tyre Systems assembly on stand		1 No.
80.	Disc 7 Drum brake systems on stand (working model)		1 No.
81.	Engine and Transmission systems on stand (working model)		1 No.
82.	HVAC Demo Kit		1 No.
83.	Electronic Ignition System of an Automobile 4 Wheeler		1 No.
84.	Demonstration Board of Working Model MPFI System with Motorized control		1 No.
85.	Instruction Kit for Charging System		1 No.
86.	Instruction Kit for Starting System		1 No.
87.	Lighting and Wiring System mock layout		1 No.
88.	System Set up and integration with Design.		1 No.
89.	Electric Vehicle	4 wheeler	1 No.
90.	Electric Vehicle KIT Chassis	 i) 3 Wheel Passenger full vehicle for assembly & disassembly ii) 4-Wheeler Buggy iii) Electrical vehicle component checker/Diagnostic iv) Solar Based Charging v) Safety Tool Kit 	1 set
91	Multimeter Digital		05 Nos
92	Ammeter able to read upto 300 A		02 Nos
93	Continuity Tester		05 Nos
94	Tyre pressure gauge		01 No
95	Measuring Tape		01 No

Mechanic Electric Vehicle

96.	Electrical soldering iron	05 Nos

The DGT sincerely acknowledges contributions of the Industries, State Directorates, Trade Experts, Domain Experts, trainers of ITIs, NSTIs, faculties from universities and all others who contributed in revising the curriculum. Special acknowledgement is extended by DGT to the following expert members who had contributed immensely in this curriculum.

	List of Expert Members contributed/ participated for finalizing the course curriculum of Mechanic Electric Vehicle trade from 19.04 .2022 to 22.04.2022 at NSDC, Delhi.		
S No.	Name & Designation Sh/Mr./Ms.	Organization	Remarks
1.	RP Dhingra, Consultant	NSDC, Delhi	Member
2.	Lokepal, Consultant	NSDC, Delhi	Member
3.	Anil Kumar, Director	CD Section, DGT, Delhi	Member
4.	S. Bandyopadhyay, AD	CD Section, DGT, Delhi	Member
5.	RP Dhingra, Consultant	NSDC, Delhi	Member
6.	Lokepal, Consultant	NSDC, Delhi	Member
7.	Bhagat Singh, AD	CSTARI, Kolkata	Member
8.	N. Ramesh, TO	NSTI, Chennai	Member
9.	Sanjiv Kumar, VI	NSTI, Ludhiana	Member
10.	Krishna Singh, AD	KPMG	Member
11.	Vinod Kumar Dwivedi	Automotive Skills Development Council	Member
12.	Om Prakash, Craft Instructor	ITI, PUSA New Delhi	Member
13.	Kapil Dev Cl	ITI, PUSA New Delhi	Member
14.	Veer Singh Jayant, CI	ITI, PUSA New Delhi	Member
15.	Amit Kumar Joshi, Cl	ITI, PUSA New Delhi	Member
16.	Amit Rohilla, CI	ITI, PUSA New Delhi	Member
17.	Deepak Kumar, CI	ITI, AKS Nizamuddin N. Delhi	Member
