2.1 GENERAL

The Directorate General of Training (DGT) under Ministry of Skill Development & Entrepreneurship offers a range of vocational training courses catering to the need of different sectors of the economy/ labour market. The vocational training programs are delivered under the aegis of Directorate General of Training (DGT). Craftsman Training Scheme (CTS) with variants and Apprenticeship Training Scheme (ATS) are two pioneer programs of DGT for propagating vocational training.

‘Old Age Care’ trade under CTS is one of the popular courses delivered nationwide through a network of ITIs. The course is of one year duration. It mainly consists of Domain area and Core area. The Domain area (Trade Theory & Practical) impart professional skills and knowledge. While the core area (Employability Skill) imparts requisite core skills, knowledge, and life skills. After passing out the training program, the trainee is awarded National Trade Certificate (NTC) by DGT which is recognized worldwide.

Candidates broadly need to demonstrate that they are able to:

- Read and interpret technical parameters/documents, plan and organize work processes, identify necessary materials and tools;
- Perform tasks with due consideration to safety rules, accident prevention regulations and environmental protection stipulations;
- Apply professional skill, knowledge & employability skills while performing jobs.
- Document the technical parameters related to the task undertaken.

2.2 PROGRESSION PATHWAYS

- Can join industry as Craftsman and will progress further as Senior Craftsman, Supervisor and can rise up to the level of Manager.
- Can become Entrepreneur in the related field.
- Can join as Ageing and Disability Services Coordinator.
- Can join as Allied Health Assistant.
- Can join as Aged Care Worker.
- Can join as Assistant Activity Group Coordinator.
- Can join Advanced Diploma (Vocational) courses under DGT as applicable.

2.3 COURSE STRUCTURE

Table below depicts the distribution of training hours across various course elements during a period of one year:-

S No.	Course Element	Notional Training Hours
1.	Professional Skill (Trade Practical)	1200
2.	Professional Knowledge (Trade Theory)	240
3.	Employability Skills	160
	Total	1600

2.4 ASSESSMENT & CERTIFICATION

The trainee will be tested for his skill, knowledge and attitude during the period of course through formative assessment and at the end of the training programme through summative assessment as notified by the DGT from time to time.

a) The **Continuous Assessment (Internal)** during the period of training will be done by **Formative assessment method** by testing for assessment criteria listed against learning outcomes. The training institute have to maintain individual *trainee portfolio* as detailed in assessment guideline. The marks of internal assessment will be as per the formative assessment template provided on www.bharatskills.gov.in.

b) The final assessment will be in the form of summative assessment. The All India Trade Test for awarding NTC will be conducted by Controller of examinations, DGT as per the guidelines. The pattern and marking structure is being notified by DGT from time to time. **The learning outcome and assessment criteria will be basis for setting question papers for final assessment. The examiner during final examination will also check** individual trainee's profile as detailed in assessment guideline before giving marks for practical examination.

2.4.1 PASS REGULATION

For the purposes of determining the overall result, weightage of 100% is applied for six months and one year duration courses and 50% weightage is applied to each examination for two years courses. The minimum pass percent for Trade Practical and Formative assessment is 60% & for all other subjects is 33%. There will be no Grace marks.

2.4.2 ASSESSMENT GUIDELINE

Appropriate arrangements should be made to ensure that there will be no artificial barriers to assessment. The nature of special needs should be taken into account while undertaking the assessment. Due consideration should be given while assessing for teamwork, avoidance/reduction of scrap/wastage and disposal of scrap/waste as per procedure, behavioral attitude, sensitivity to the environment and regularity in training. The sensitivity towards OSHE and self-learning attitude are to be considered while assessing competency.

Assessment will be evidence based comprising the following:

- Job carried out in labs/workshop
- Record book/ daily diary
- Answer sheet of assessment
- Viva-voce
- Progress chart
- Attendance and punctuality
- Assignment
- Project work

Evidences and records of internal (Formative) assessments are to be preserved until forthcoming examination for audit and verification by examining body. The following marking pattern to be adopted while assessing:

Performance Level	Evidence
(a) Weightage in the range of 60%-75% to be allotted during assessment	
For performance in this grade, the candidate should produce work which demonstrates attainment of an acceptable standard of craftsmanship with occasional guidance, and due regard for safety procedures and practices	<ul style="list-style-type: none"> • Demonstration of good skills and accuracy in the field of work/ assignments. • A fairly good level of neatness and consistency to accomplish job activities. • Occasional support in completing the task/ job.
(b)Weightage in the range of 75%-90% to be allotted during assessment	
For this grade, a candidate should produce work which demonstrates attainment of a reasonable standard of craftsmanship, with little guidance, and regard for safety	<ul style="list-style-type: none"> • Good skill levels and accuracy in the field of work/ assignments. • A good level of neatness and consistency to accomplish job activities.

procedures and practices	<ul style="list-style-type: none"> • Little support in completing the task/job.
(c) Weightage in the range of more than 90% to be allotted during assessment	
<p>For performance in this grade, the candidate, with minimal or no support in organization and execution and with due regard for safety procedures and practices, has produced work which demonstrates attainment of a high standard of craftsmanship.</p>	<ul style="list-style-type: none"> • High skill levels and accuracy in the field of work/ assignments. • A high level of neatness and consistency to accomplish job activities. • Minimal or no support in completing the task/ job.

List of Tools and Equipment	As per Annexure – I		
Distribution of training on hourly basis: (Indicative only)			
Total Hrs./ Week	Trade Practical	Trade Theory	Employability Skills
40 Hours	30 Hours	6 Hours	4 Hours

Learning outcomes are a reflection of total competencies of a trainee and assessment will be carried out as per the assessment criteria.

5.1 LEARNING OUTCOMES (TRADE SPECIFIC)

1. Identify the organizational hierarchy of old age care, select and perform the duties and responsibilities following safety precaution.
2. Develop communication skill for maintenance of office correspondence.
3. Develop computer skill for maintain the data and office correspondence.
4. Identify different physical and mental health related issues for old age persons and comply the methods for solutions.
5. Comply preservation of food and dietary requirement.
6. Attain knowledge of health and hygiene.
7. Attain required knowledge of sociology, physiology and anatomy for old age care.
8. Develop hands on skill for kitchen hygiene and housekeeping maintenance.
9. Apply practices for problem related physical effect like Locomotion, Paralysis, fracture, bed sores etc. Psychological effect like memory loss, exit tendency, depression, aggression, suicidal tendency etc.
10. Identify, select and resolve the issue related to human health as per gender.
11. Perform different types of drills to execute fire and natural hazards.
12. Organize and assist psychological counselling and organize social events.
13. Assist for nursing care of old age person and develop the skill for entertainment for old age person.

6. ASSESSMENT CRITERIA

LEARNING OUTCOMES	ASSESSMENT CRITERIA
1. Identify the organizational hierarchy of old age care, select and perform the duties and responsibilities following safety precaution.	Follow different age criteria and maintain behavior chart of different age people.
	Recognize and report different mental and physical health issues of male after 50 years.
	Recognize and report different mental and physical health issues of female after 50 years.
	Identify and observe services require for aged people.
	Identify duties and responsibilities of old age care service personnel.
	Follow the organizational hierarchy of old age department of different countries.
2. Develop communication skill for maintenance of office correspondence.	Practice on vocabulary to be used in profession life.
	Identifying different situation and applying correct methodology for same (case studies to be given with questionnaire).
	Solve problem for part of speech, tenses and other grammar part.
	Conduct group discussion for vocabulary building and phonetics.
	Demonstrate elementary letter writing and filing procedure.
	Demonstrate different type of communication for old age care homes and other working area.
	Practice for letter writing Formal and informal.
	Conduct written communication.
	Maintaining medical history and timing for medicine.
	Demonstrate study of medicine dose and record maintains.
3. Develop computer skill for maintain the data and office correspondence.	Demonstrate different component of computer system.
	Display and give knowledge about different output and input devices.
	Demonstrate different operating system and their limitation.
	Demonstrate different video outputs.
	Practice and demonstration of MS Word. Typing, editing, tabulation, insertion of pictures, videos, formatting etc.
	Practice and demonstration of MS EXCEL. Typing calculation, formatting, separating data, graph etc.

	Practice and demonstration of MS Power point. Typing, making presentation, inserting different graph, picture, video etc. Their applications will be assessed during execution of assessable outcome.
	Demonstrate concept of LAN,WAN etc.
	Demonstrate use internet for mail, voice mail etc.
	Demonstrate procedure to inbox, outbox, viewing, sending and saving email etc.
	Demonstrate maintains of different mail in folders to make search easy. Keep different priority to mail
4. Identify different physical and mental health related issues for old age persons and comply the methods for solutions.	Demonstrate difference in physical and mental health.
	Practice and give easy and initial remedies for common health issues like cold, cough, fever, pain etc.
	Demonstrate specific physical health issues like astama, knee pain, back pain, bed sore, piles etc.
	Demonstrate exercise for physical health related issues.
	Demonstrate condition of different mental health issues of aged person.
	Practices to be followed for memory loss, insomnia, depression etc.
	Demonstration of yogic exercise for mental health.
	Demonstrate walking aids.
	Demonstrated how to support person with walking issues
	Demonstrate how to feed person with paralysis
	Practice for how to deal with bed ridden person
	Demonstrate different types of chair and bed adjustments for old age person.
5. Comply preservation of food and dietary requirement.	Identity different technique for preservation of food.
	Identify common preservative for food. Effect of preservative on food. Quantity of preservative to be added.
	Demonstration of principal and technique for refrigeration.
	Identify different dietary requirement of old age people.
	Prepare dietary chart for different requirement such as Blood pressure, diabetics, digestive disorder etc.
6. Attain knowledge of health and hygiene.	Identify different health issues and related hygienic issues.
	Group work for motivation for hygiene and exercising.
	Demonstrate and write importance of exercise, sleep, rest and good growing.

	Discuss importance of sunlight, fresh air and water.
	Demonstrate and discuss personal hygiene (skin care, hair, teeth, hands and feet).
	Discuss and identify bed sore, patches in skin, dryness in skin etc.
7. Attain required knowledge of sociology, physiology and anatomy for old age care.	To understand importance of family, visitors and community for old age people.
	To demonstrate group formation and behavioural change due to it.
	Understand and practice for Blood pressure, pulses and oxygen.
	Discuss does and don'ts for common deases like fever cold cough, walking problem etc.
	Understand bone structure and its function.
	Videos – animation of physiological regulations of various systems.
	Know different organs and its function.
	Identify common symptom for dis functioning of organs.
8. Develop hands on skill for kitchen hygiene and housekeeping maintenance.	Discuss and understand hygienic aspect of kitchen.
	To practice storage of uncooked food and cooked food.
	To understand storage of fresh food such as green vegetable and fruits.
	Study of food habit of different regions.
	Preparing dietary chart for different age people.
	Preparing dietary chart for diabetic, blood pressure, week digestion person etc
	Preparing dietary chart as per requirement of old aged person like high protein, high fiber high sugar etc.
	Demonstration of housekeeping : bed making, ironing, storing, cleaning etc.
9. Apply practices for problem related physical effect like Locomotion, Paralysis, fracture, bed sores etc. Psychological effect like memory loss, exit tendency, depression, aggression, suicidal	To study effect of physical problem like locomotion, paralysis, fracture, bed sore etc.
	To practice for locomotion and walking issues for old age persons.
	To practice methods to deal with paralysis person.
	To practice for different fracture and bed sore.
	To study effect of psychological effect like memory loss, exit tendency, depression, aggression suicidal tendency etc.
	To practice method to deal with memory loss.
	To practice method to deal with exit tendency and depression.

tendency etc.	To practice method to deal with bed ridden person.
	To practice method to deal with mentally disturb person.
10. Identify, select and resolve the issue related to human health as per gender.	To recognize health issues for male.
	To recognize health issues for female.
	To study remedies and difficulties for Male: Prostate, Kidney stone, gland infection etc.
	To study remedies and difficulties for Female: urinary tract Infection, fungal infection etc.
	To apply natural treatment for above problem area.
	To understand climatic change and health.
	Utilization of different food for climatic change.
	Demonstration of personal care and hygiene.
	Understand and apply Light exercise as per climate.
11. Perform different types of drills to execute fire and natural hazards.	To study and visit different hospitals for health care. Understand audio and video production by recordings.
	To understand different emergency situation like heart attack, paralysis attack, high fever, asthmatic attack etc.
	Drill on different type of fire and natural Hazards
	Demonstration and instruction by Fire department of fire Brigade.
12. Organize and assist psychological counselling and organize social events.	To understand importance of listening talking laughing etc.
	To organize laughing session, clapping session and singing session. Understanding importance of all above session.
	To practice yoga for aged person.
	Group discussion for different activities for entertainment
	To organize one show for old age person at nearby old age home.
13. Assist for nursing care of old age person and develop the skill for entertainment for old age person.	To practice comfort for old age person for pain and anxiety.
	To practice first aid required for day to day life and critical situation like falling down, fever, vomiting etc.
	To practice nursing aids for different situation like paralysis, stroke, heart attack etc.
	To understand type of entertainment, require for different situation.
	To arrange group entertainment for old age person.
